Introduction

I have fifteen years experience in the industry working as a designer, illustrator and art director, both individually and as part of a team. Running my own studio has given me a wide range of abilities and skills. Not only do I understand all levels of the design process, but I also know how to run a successful business. Although I can single-handedly develop an initial concept to a final product, I truly enjoy working with others and thrive on the tremendous results that come from collaboration.
